from Kansas. The Missouri mob is determined to subjugate the free-state men little hope for any escape from an appeal

The following telegraphic news is from St. Louis, under date of Dec. 5th :

A young man twenty-two years of age, named I'ow, while at a blacksmith shop, where several border ruffians had congregated, was deliberately shot by one Coleman. Attempts were made to Trumbull County. arrest the murderer, but through the aid of his abettors he escaped to Missouri .-A meeting of citizens convened on the spot of the murder. Committee enquirinto the facts of the case and pronounced Berkly, Moody and Waggoner as accessories. A series of resolutions were passed and committee appoined to investigate still further and search out offenjustice. Sheriff Jones arrested Jacob Branson, (at whose house Dow lived,) for security of the peace, but while proceeding to Lecompton he was recued by a party of his neighbors. Jones sent to East corner of Lot No. 44, thence S 3 Board of Agriculture. the Governor had assured him of the assistance of 10,000 men if needed.

Governor Shannon, and all the officers of the Territory side with the Slaveocrats, and under preiense that the people were resisting the officers, Shannon has called on the military in Territory to overpower them. It is said that Presi dent Pierce is backing the Governor and the border ruffians to the fullest extent. A later report contains the following :

"A secret letter from Secretary Woodson to Gen. Easton, has been written, in which the writer requests Gen. E. to call for the Rifle Company at Plattee City, Mo., so as not to compromise Gov. Shan-

Four hundred men, from Jackson Co. Mo., are now en route for Douglas Co., Kansas Territory. St. Joseph and Weston, in Missoufi, are requested to furnish the same number of men. The people of Kansas are to be subjugated at all hazards !"

Under these circumstances the actual s ettlers of Kansas seemed to have no alternative, but to resist or be destroyed. We cannot doubt but that they will a ct like men, and we trust the Missouri ruffians will yet be made to rue the day when they first invaded the territory .-The duty of the free States in the matter is a question which calls for serious thought. Many papers are proclaiming that the attack of these last invaders opens a civil war, which demands instantaneous action upon the part of the North, to prevent the freemen in Kansas from being overwhelmed.

grasp, they may desist from their lawing Shannon power to call upon the U. this office, since it came in our pos- woods. S. troops in the Territory to support the session, and we part with him now with official tools of the usurping Legislature, regret. We heartily wish him success, should be immediately inquired into, politically and financially. and such Congressional action taken as will give the strongest and most speedy

The present state of things cannot be long endured. The patience of the Northern people is fast being exhausted, and if they are prevoked beyond endurance, wo to them upon whom their wrath shall fall! The Administration seems to act upon the assumption that no outrage or insult is to great for freemen to bear, from the Slaveocracy, and ap pears determined to try whether the free States can be roused to opposition by the ulmost stretch of insolent oppression. The people of the North are patient, and the South should mind the old proverb, and beware how they enrage suck; but if they will not be prudent, the penalty will be upon their own heads.

The Kansas Tribune. Mr. S. N. Wood, one of the editors of this paper, lectured on Kansas, in this place a few weeks since, and obtained several subscribers for the Tribune. The paper has not been received for several weeks, and we copy from the Summit Beacon, the following, which throws some light on the cause of discontinuance :

"Mr. John Speer, of Medins, who started the Tribune, will, we feel assured, fulfill his obligations to his subveribers, unless prevented by violence. Under the code of laws which Shannon has announced his purpose to execute, the Tribune could not be published for a day; because it is declared a crime to affirm -what that Journal did affirm-the illegalite of Slavery in Kansas. We are sorry to hear of the sad misfortune of the junior publisher:

The Medina Gazette says :

We learn by a private letter from Kansas, that the Kansas Tribune, edited and published by Mr. J. Speer, formerly of this place, for some reason is discontinued. It has not been published for about 3 or 4 weeks. Joseph Speer, who is also well known in this vicinity, had a serious encounter with one of the Missouri villains, in which he was horribly mangled. A gash was made from his mouth to his ear, and also one across his throat. They a tempted to cut off his head, and per haps would if assistance had not arrived. If we get anything farther we will lay it before our readers.

The Ohio Cultivater.

We learn that our former citizen, Col. S. D. Harris, has purchased the office of the Cultivator, and is now sole propri etor. There is no doubt but the Colonel will fully maintain the reputation which the Cultivator has acquired. His hairy face is well known in these parts, and if he were to circulate through this county among the farmers, he could add mate rially to his sub-cription list.

SATURDAY EVENING POST .- Attention is invited to the Prospectus of this old. and well or 'usted weekly.
